- 4. The labor tory puts out a certain product or products, the nature of which is unknown to the astonian employees of the enterprise. About once every fortnight a military truck arrives to fetch the output. The output is packed in zinc boxes and packed in turn in wooden boxes.
- 5. Trom time to time strangers arrive in ears and stay at the laboratory for several days. To Estonian enquiries concerning these strangers the laboratory workers reply that they are members of the coviet academy of ciences the have come to give instruction on the production of basterial fertilizers."
